### **JUSTIFICATION:**

Burning on a "No Burn Day" is a special privilege which may be granted to help avoid undue economic hardship, but it adds smoke pollutants to possibly an already overburdened airshed. Therefore, you must prove that a costly, unforeseen emergency truly exists with each request to burn on a No Burn Day.

State below the reasons why denying you a permit to burn TODAY (i.e. on a No-Burn Day) would "threaten imminent and substantial economic loss" pursuant to Section 41862 of the California Health and Safety Code:

\_\_\_\_\_

State the estimated dollar value of economic loss you will incur if your burning project is not completed TODAY:

---

Did you attempt to burn this material before Today?  Yes  No

If "No", why not?

***Pursuant to Section 118 of the California Penal Code, I declare under penalty of perjury that the foregoing is true and correct:***
